Aircontact has a high success rate when it comes to competitive bidding, which is how most of our business is secured.

■ PERSONAL DEDICATED PROJECT MANAGER FROM START TO FINISH

Aircontact appoints one dedicated Project Manager from the inquiry stage right up to the point where the project is completed. The Project Manager also draws on the experience of the rest of the broker team with regard to choosing the most suitable aircraft, the best operators, cargo handling, infrastructure at the airports involved, traffic rights and the many other important issues which need to be addressed to ensure that the operation is completed, problem free.

■ STRONG FINANCIAL POSITION

Aircontact is part of Aircontactgruppen which has an annual turnover of more than 500 million Euro. In recent years Aircraft has had an average annual turnover of more than 50 million Euro. This puts us in a position to obtain credit from many operators when there is no time to complete the financial details before the flight. In a similar manner Aircontact is also in a position to offer credit to clients in particular situations and if certain requirements are met.
